

## Dave's Remarks

Welcome all of you and a special greeting to the students from the members of the Board of Trustees. It was not too many years ago that I was in your shoes, finishing up my education at The Community School and preparing for the next step in my life. The school gave me the foundation and support to move forward. That support has been a constant even now and I learned early that it is when you give back that good things happen to you. The school has enriched my life and being with each of you has been an honor and a pleasure.

The Board of Trustees is so proud of you. We have observed your hard work and dedication and are confident in your abilities. We have stood with you along this journey and will be proud to continue to be a part of your life whether you are continuing in the program next year, going on to college, or ready for the world of work. We believe in you and salute you.
