

EOY Speech

Hello all. I have been with this school for some time now and had the honor of working with a number of young people for almost 3 years now. Looking back, I now see the vast leaps of progress the organization, the people involved, and the students have made. It fills my heart with so much hope for all those who have graduated, who will be taking the test this summer to move on, and those who will be returning next year to do so many great things with their lives.

As for myself, I am pleased to stand before you and accept the honor of recognition for what I have achieved. For if not for this school, the people sitting in this room, and Tom, I would not be where I am today. I feel an overbearing sense of gratitude to you all and hope that I may help future students the same way you have helped me.

Lastly, I like to mention one more thing. Tom always mentions that the year's class is always the best class he has had. After looking at this year's students, I now know the gravity of his statement because I now know that each year the students become more determined to achieve what they want, and I just want to thank them as well for giving me the chance to be a part of their lives during their time at the school. Thank you.

Thank you all.
