

End Year Speech!

Two years ago, if anyone had asked me where I thought I would be right now, my answer would not have been in college. It is amazing how much can change in so little time. And I owe so much of that change to The Community School.

The Community School taught me everything that I needed to know to be successful in college and in life. The work habits that we learn here are very helpful in making your experience in college more enjoyable and successful.

It is a great honor to be a part of such a wonderful family, a family that I continued to be directly involved with this past year, as Tom's administrative assistant. It is an amazing experience being here as the students are hard at work each day. I see myself when I was back at the school.

The Community School made it possible for me to choose my own path to where I want to be and who I want to become. And each of you, the current students, now has that same opportunity. I wish you all the best in the future!
Thank you!
