

# **Welcome**

**Tom Culotta**

Welcome everyone to this wonderful day, my favorite day of the year. It is the one day we come together as a whole community to honor our students and graduates. They have been on an intense and rigorous journey and we salute their perseverance, hard work, dedication and accomplishments. Each and every one deserves to feel proud today as do your their family, friends, neighbors, and supporters. Our community is a better place because of the growth of these fine young men and women. Let's give them a hand.
